

DETAILED INFORMATION ABOUT WATER SUPPLY AND SANITATION PROJECTS

During 1995-2005, GİNTAŞ Construction Contract Trade Inc. carried out more than one projects as a part of Bursa Water and Environment Healthy Project which were awarded by Bursa Water and Sewerage Administration. During the Bursa Water and Environment Healthy Project the city's existing infrastructural network which had nearly 1 million populations in these days was renewed. Together with potable water treatment plant, pump station and force main, eastern and western wastewater collectors were constructed. The huge part of the Project was financed by WORLD BANK, EBRD and KFW. GİNTAŞ is proud about participating in solution of infrastructural problems of the city in which it was born and grow during the urbanization period.

As a part of Bursa Water and Environment Healthy Project existing network which had approximately %60 water loos composed to PVC, asbest or pik pipes was renewed with fontductil pipes. By subscriber connections rehabilitations water looses were minimized.

Again as a scope of the same Project, existing wastewater sewerage system was rehabilitated with concrete, ferroconcrete and HDPE pipes. By installing wastewater collectors to the sides of rivers collected wastewaters have canalized to treatment plants.

Before Bursa Water and Environment Healthy Prefect some sites had to deal with flooding after every rain. The city build to boom of Uludağ was saved of flooding by construction stormwater lines and box collector which will collect stormwaters.

GİNTAŞ has committed not only construction Works subject to Bursa Water and Environment Healthy Project but also hydraulic design and implementation Project Works which were not given by the Administration were done by GİNTAŞ. In scope some projects together with construction of new networks all existing mains had measured and the digital data has established in accordance with country coordinate system.

Summary of financial and technical details of the projects subject to the Bursa Water and Environment Healthy Project can be fined on "Project Data Sheet".

Name of Project :	Bursa Water and Sanitation Project
Contractor :	Gintas Construction Contracting and Trade Inc.
Client:	Bursa Water And Sewage Administration-BUSKİ
Performance:	Sole Contractor
Location :	Bursa / TURKEY
Contract Type :	International Funded – Unit Price Contracts

<u>Contract Name:</u>	<u>Total Value of Works</u>	<u>Period of Contract</u>
<i>Rehabilitation of the Existing Potable Water Network and Subscriber (Package 1)</i>	40.000.000,00TL =2.471.468,44 Euro	3 YEARS (04/1995- 11/1998)
<i>YS 12 and YS 38 Storm Water Collectors</i>	475.670,33TL =11.456.992,43 Euro	3 YEARS (01/1996- 08/1999)
<i>Rehabilitation of the Existing Potable Water Network and New Network Construction (Package 4)</i>	780.109,73 TL =10.162.390,08 Euro	3 YEARS (01/1997-11/2001)
<i>Rehabilitation of the Stormwater, Sewerage and Potable Water Networks (Package 2)</i>	1.644.561,36 TL =5.679.424,41 Euro	2 YEARS (08/1999-12/2001)
<i>Rehabilitation of the Existing Potable Water Network and New Network Construction (Package 6)</i>	1.774.205,66 TL = 6.127.145,62 Euro	3 YEARS (08/1999 – 11/2002)
<i>Stormwater Drainage Works (Contract No : BURKAN 3)</i>	8.210.608,47 TL = 7.918.279,08 Euro	3 YEARS (07/2002 – 10/2005)
<i>Rehabilitation of Exist Water Network and Renovation of Subscribers Connection (Contract No: BURSU 10)</i>	2.923.179,49 TL= 1.670.388,28 Euro	2 YEARS (05/2004-06/2006)
TOTAL:	45.486.087,39 EURO	Between 1996-2006 /Non-stop for ten years

Professional Team:

Hydraulic Project Design :	OPTIM OBERMAYER GINTAS Project Design Team	In YS 12-38 BURKAN -3
Structural :	Salih Zeki UN	Civil Engineer
Project Coordinator :	Necip Naci DOĞRU	Civil Engineer
Site Manager :	Muhammet ÇETİN	Civil Engineer
